ACOUSTIC WORKPLACE SOLUTIONS

We need to talk, listen and understand effectively to be able to focus in our work.

For both collaboration and individual work requiring high focus, Hush acoustic workplace solutions offer you the right amount of 'quiet' to help you achieve success in open plan offices.

HUSH Acoustic Workplace Solutions are:

- **Built to last** - superior build quality to make your investment go the extra mile
- **Flexible** - pods are movable and can be easily repositioned without being disassembled
- **Affordable** - no need to build walls or meeting rooms, saving you from lengthy and expensive building consent processes
- **Customisable** - full range of sizes for continuity across your office fit-out, with 35 colours of wool fabric to choose from
- **Comfortable** - Balanced acoustics (not absolute silence), air reticulation system and moulded sofa seating for the ultimate user comfort
- **Safe** - toughened glass with acoustic film, anti-collision frosting, plus flame retardant foams and fabrics for improved safety
- **Secure** - optional electronic door lock keeps pod secure while not in use and can be unlocked easily with a smartphone
- **Healthy & clean** - healthcare-grade fabric inhibits odour and stain causing bacteria

Better air circulation

Environmentally conscious

Why go with Hush?

- 5 year warranty
- Fully customisable
- Table and/or seating included in most models, no need for additional purchases
- 2-3 times better air circulation compared to other brands
- Safety and sustainability conscious
- See Hush in your office before you order, with the MSO Plan app (AR function on iOS only)

Multiple colours and finishes available for customisation
